

SAFCO KLEEN VF 200

Degreasing Agent

DESCRIPTION

SAFCO KLEEN VF 200 is a technical fluid specifically developed to replace petroleum and chlorinated solvents in their applications to cold or hot surface.

Useful product for cleaning applications:

- Surface does not need to be completely dry after cleaning
- Requires a stronger solvent power compared to hydrocarbon based solvents (elimination of resin deposit inks)
- Forms a temporary protective film on the treated parts.

RECOMMENDED APPLICATIONS

SAFCO KLEEN VF 200 is a technical fluid specifically developed to replace petroleum and chlorinated solvents in their application to cold or hot surfaces. It is used non diluted, cold or warm (80°C max).

Can be applied with cloth, in a cleaning fountain, can be sprayed or dipped.

SAFCO KLEEN VF 200 is a strong degreasing fluid suitable for sensitive materials and confined environments.

It is well-suited for the cleaning or degreasing of mechanical parts or machining fluid residues.

ADVANTAGES

- Strong degreasing power.
- Non-flammable, with a flash point over 170 ° C, it avoids any ATEX risks.
- Compatible with most materials, metals, plastics, elastomers, rubber, painted surfaces.
- Can be used in closed spaces.
